I uploaded the new one to the R&B site. Let me know if you need anything else.

See my changes made on the document that I attached to the Region 6 Branch Chf - Ronnie – minor but also included statement that we are reducing dissolved metals at the R n B. It might be better to use that one.

Steve,

I posted this to the Red and Bonita site but didn't have access to the Gold King response site.

Let me know if you want additional changes.

Elliott is confident in Megan's ability to do the flow measurements. He showed her the measurement location and shared the spreadsheet. More later if you have questions.

Jan
